Hi Randy,

I responded to a chemical fire in Oklahoma City on July 24, 2012. The RP [Bachman Services] currently has their frac tanks stored on property owned by the Indian Cultural Center. The RP/City had a meeting with representatives from the cultural center to discuss the site and potential frac tank storage on the property. They RP/City reported the cultural center is 'privately' owned.

I just wanted to pass on the information so your group would be aware of the site. If you have any questions, please feel free to contact me.

Thanks.
